

## 2014 RATES AND FEES

Water usage rates for ECCV customers will increase approximately 3% in 2014. Water usage rates and fees are adopted by the Board of Directors and are classified by customer type (residential, commercial, etc.). For example, a residential customer using 0 – 5,000 gallons (Tier 1) of water per month will pay \$3.20 per thousand gallons. A customer using 6,000 – 20,000 gallons (Tier 2) per month will pay \$5.40 per thousand gallons. A complete list of Rates, Fees and Charges may be found at [www.eccv.org](http://www.eccv.org).

The District's monthly administration fee will increase from \$5.00 per month to \$5.50. This fee covers the costs of meter replacement, meter reading, billing, and payment processing fees.

Sanitary sewer service fees will increase in 2014. In 2013 this fee was \$31.00 per month. The sanitary sewer service fee will now increase by \$1.70 per month to \$32.70. This is due to an increase in rates charged by the Metro Wastewater Reclamation District for planned environmental and infrastructure enhancements to improve water quality in the South Platte River.

## 2014 METER READING SCHEDULE

ECCV makes it a priority to read customers' meters accurately, efficiently, and consistently. The 2014 residential meter reading schedule groups communities into three cycles to help customers plan watering, and anticipate readings and billing statements. Meter reading periods range from 27 to 34 days, pending adverse weather or unforeseen circumstances. On average, meters are read every 28 days from May through September and 32 days the remaining months.
